

The Church Together

Questions for Discussion

If your family includes children of varying ages, consider rewording the questions to help your child better understand what's being asked.

1. *“Worship is an encounter with God resulting in a response to God’s love.”* How did you experience the love of God in worship today?
2. How will you respond to God’s love this week? How might you “offer your body as a living sacrifice” or “offer a sacrifice of praise, lips that confess his name”?
3. Pastor Danny mentioned three aspects of worship:
 - focusing our attention on God
 - expressing our affection to God
 - using our abilities for God

Which of these is most consistent in your life?

Which could use some improvement? How will you plan to improve?

Ideas to Live Sent

Worship is part of the church gathered as well as the church scattered. As you express your love to Him in your personal place of worship, ask Him to give you an opportunity to show your love for Him each day this week by using your abilities to serve someone and sharing with them about your love for God.
